## 1. Biographic Profile

**Dr. Robert M. Weiler** holds a Bachelor's of Arts degree in health and safety education from Marshall University (1983), a Master of Public Health, in community health education from the University of Tennessee (1984), and a Doctor of Philosophy in education with a specialization in school health education from Southern Illinois University at Carbondale (1991). From 1984-1987, he served as the school health coordinator for Cumberland County Schools, the third largest school district in North Carolina (Fayetteville), and from 1991-1993 he was appointed visiting assistant professor of Human Services at George Mason University. In 1993, Dr. Weiler joined the faculty in the Department of Health Education & Behavior at the University of Florida. He was promoted to associate professor with tenure in 1998 and promoted to full professor in 2005. From 2003 to 2007 he served as the chair of the department and from 2012 – 2014 served as director of graduate programs. In 2014, Dr. Weiler was appointed professor with tenure and chair of the Department of Global and Community Health at George Mason University.

Dr. Weiler's research interests include program evaluation, school health policies and programs, adolescent health risk behaviors, problem drinking behaviors and injuries among college students, and substance abuse prevention with emphasis on the nonmedical use of prescription drugs among adolescents and young adults. Dr. Weiler's research has explored Florida's school violence policies and programs and the role of school health instruction in preventing violence. He served as co-investigator for the first published study that confirmed the feasibility of collecting health risk behavior data using a web-delivered survey. A specialist in applied evaluation, he is regularly asked to conduct youth health behavior assessments for local school districts, providing them with a comprehensive overview of adolescent behaviors with recommendations for planning school health policies and health promotion programs. For three years Dr. Weiler served as the co-principal investigator for the Florida Coordinated School Health Program Pilot Project, funded by the Centers for Disease Control and Prevention. In January 2002, he was invited to join the Scientific Advisory Board of Purdue Pharma (Stamford, CT), where served as a technical advisor on the development and evaluation of *Painfully Obvious*, a middle and high school prescription drug abuse awareness curriculum. He subsequently received funding from Purdue Pharma to conduct a content/context analysis of prescription drug information conveyed in health textbooks, state health education curriculum frameworks, and model drug abuse prevention programs. Several years ago, Dr. Weiler completed a two-year externally funded investigation that evaluated the test-retest reliability of prescription drug use items designed for the Centers for Disease Control and Prevention's Youth Risk Behavior Survey, a project that involved collecting data from 9<sup>th</sup> -12<sup>th</sup> grade students from five high schools across the United States.

Dr. Weiler has authored or co-authored more than 60 refereed articles and scientific papers in professional journals including *Addiction Biology*, *Addictive Behaviors*, *Alcoholism: Clinical and Experimental Research*, *Annals of Behavior Medicine*, *Health Education & Behavior*, *Journal of Adolescent Health*, *Journal of School Health*, *Journal of Studies on Alcohol and Drugs*, *Public Health Reports*, and *Preventive Medicine*. Moreover, he has presented more than 100 papers at national and international scientific meetings and conferences. He has served as co-investigator/evaluator on four NIH grants, and principal investigator on 13 state and private contracts, totaling more than \$5.9 million.

Dr. Weiler is a founding member of the American Academy of Health Behavior, a member of the American Public Health Association, a member of the Society for Public Health Education, and is a Fellow of the American School Health Association. In 2002, Dr. Weiler received the prestigious University of Florida Research Foundation Professorship and in 2010 was a member of the inaugural class of University of Florida Sustainability Fellows. In August 2011, Dr. Weiler was awarded the Elizabeth Wood Dunlevie Honors Professorship to teach introductory epidemiology to undergraduates enrolled in the honors program at the University of Florida.

## 2. Research and Professional Interests

Adolescent Health Risk Behaviors, Applied Field Research Methods, Community Health Promotion Planning and Evaluation, Nonmedical Use of Prescription Drugs, Problem Drinking Behaviors and Injuries among College Students, School Health Policies and Programs

## 3. Education

**Doctor of Philosophy (PhD)** in Health Education, College of Education, Southern Illinois University at Carbondale, Carbondale, Illinois, May, 1991.

Dissertation: *The Congruence of Adolescent Health Concerns As Expressed by Adolescents, Their Teachers, and Their Parents.*

**Master of Public Health (MPH)** in Community Health Education, College of Education, Health, and Human Sciences, University of Tennessee, Knoxville, Tennessee, August, 1984.

**Bachelor of Arts (BA)** in School Health Education K-12/Safety Education 7-12, College of Education, Marshall University, Huntington, West Virginia, May, 1983.

## 4. Professional Experience

### A. Administrative

**Chair**, Department of Global and Community Health, George Mason University, Fairfax, VA, August 23, 2014 – present.

**Director**, Institute for Public Health, George Mason University, Fairfax, VA, January 1, 2016 – present.

**Chair**, Department of Health Education & Behavior, University of Florida, Gainesville, Florida, August 8, 2003 - June 30, 2007.

**Director**, Florida Center for Health Promotion (now the Center for Digital Health and Wellness <http://cdhw.hhp.ufl.edu/>), University of Florida, Gainesville, Florida, August 8, 2003 - August 12, 2005.

### B. Academic

**Professor (with Tenure)**, Department of Global and Community Health, College of Health and Human Services, George Mason University, Fairfax, VA, August 25, 2014 – present.

**Director of Graduate Programs**, Department of Health Education & Behavior, College of Health and Human Performance, University of Florida, May 15, 2012 – May 14, 2014.

**Elizabeth Wood Dunlevie Honors Professor**, Undergraduate Honors Program, University of Florida, Gainesville, Florida, August 2011 – May 2012.

**Professor (with Tenure)**, Department of Health Education & Behavior, University of Florida, Gainesville, Florida, July 1, 2005 – June 30, 2014.

**Associate Professor (with Tenure)**, Department of Health Education & Behavior, University of Florida, Gainesville, Florida, July 1, 1998 - June 30, 2005.
